

2-2-0.2 FISH FERTILIZER

MADE IN MINNESOTA

TWO MIKES GREEN FIN PLANT CARE

WHAT IS GREEN FIN PLANT CARE?

GREEN FIN PLANT CARE IS A 100% ORGANIC FERTILIZER SOURCED RESPONSIBLY FROM INVASIVE CARP SPECIES THAT ARE DAMAGING MINNESOTA WATERWAYS.

MADE LOCALLY IN THE TWIN CITIES AREA. GREEN FIN PLANT CARE IS GREAT FOR HOME, GARDEN OR FIELD USE & CONTAINS THE RICH NUTRIENTS YOUR PLANTS & CROPS CRAVE.

GREEN FIN PLANT CARE IS THE ONLY FERTILIZER OF ITS KIND, CLAIMING ZERO WASTE IN ITS PRODUCTION & OFFERS A RE-USE & RE-FILL PROGRAM THAT LIMITS THE IMPACTS OF PACKAGING WASTE ON THE ENVIRONMENT.

WHY FISH FERTILIZER?

WHILE MANY FERTILIZERS EMPLOY HARSH CHEMICALS & PROCESSES, WE USE A NATURAL COLD-HYDROLYSIS METHOD THAT RETAINS THE CARP'S NATURAL OILS, PROTEINS, MICRONUTRIENTS & AMINO ACID CHAINS, ALL OF WHICH SUPPORT PLANT GROWTH & HEALTH.

AS A 100% ORGANIC PRODUCT, WE ARE CATEGORIZED AS A SLOW-RELEASE FERTILIZER. WE ENSURE AGAINST "FERTILIZER BURN" & ARE KNOWN TO INCREASE SOIL BIODIVERSITY.

WE LEVERAGE THE HOSTILE CARP POPULATION IN MINNESOTA WATERWAYS, TURNING AN UNWANTED RESOURCE INTO A USEFUL COMMODITY.

BUT SERIOUSLY, WHAT DOES IT SMELL LIKE?

GREEN FIN PLANT CARE SMELLS SURPRISINGLY UN-FISHY.

USERS SAY IT HAS A MILDLY SWEET AND MUSKY ODOR TO IT, NOT UNLIKE DRYING PAINT.
